

About *Piedmont Atlanta*

1968 Peachtree Road NW • Atlanta, Georgia 30309 • 404.605.5000 • piedmont.org

Who We Are

Piedmont Atlanta Hospital, the flagship hospital of Piedmont Healthcare, has served Atlanta for more than a century. What started in 1905 as a 10-bed sanatorium has grown into a 643-bed facility renowned for its high quality, patient-centered healthcare. Piedmont Atlanta is an acute-care community hospital offering all major medical, surgical and diagnostic services, including 24-hour emergency services, transplantation and comprehensive care.

The Marcus Tower at Piedmont Atlanta, which opened in August 2020, houses the Piedmont Heart Institute, the Marcus Heart and Vascular Center, the Samsky Invasive Cardiovascular Services Center, Piedmont Neurosciences, a Neuro and Cardiac ICUs, a Comprehensive Stroke Center, and the Shaheen Auditorium. A dedicated Transplant unit is planned as a future addition to the Tower. The 16-story tower features technologically-advanced operating rooms, cardiac and electrophysiology labs, critical and acute care facilities, and up to 408 beds.

As a not-for-profit organization, hospital earnings maintain and enhance services and facilities and support education, outreach, and research activities. This allows Piedmont Atlanta to offer the most advanced, specialized care possible.
